Purpose

This policy defines how Acme grants, reviews, and removes access to production systems and company data.

It applies to all employees, contractors, and service accounts.

Multi-factor Authentication

MFA is required on all production accounts, including administrator and break-glass accounts.

Hardware security keys are required for members of the infrastructure team.

Access Reviews

Access to production systems is reviewed every quarter by the system owner.

Accounts of departed staff are disabled within one business day of their last working day.
